WELCOME ADDRESS FROM THE CHIEF PATRON

On behalf of Prince Sultan Cardiac Center Qassim, I am greatly honored and pleased to welcome you all to the 1st Qassim Primary PCI Summit.

To raise awareness of STEMI management, this conference offers you a unique opportunity to gather here to share experiences and discuss evolving strategies for Primary PCI, which definitely will result in the improved outcomes for our patients.

Distinguished and experienced international, national and regional faculty are invited to this event. They will focus on the field of STEMI management.

With a large number of participants, I am sure that this summit will be a memorable, highly educational, and "not-to-be-missed" event.

I would like to take this opportunity to thank Saudi Heart Association (SHA) and Saudi Arabia Cardiac Interventional Society (SACIS) for their support, all international, national, and regional faculty, and eminent interventional cardiologists who came and participated in our educational event.

Finally, I would like to cordially thank all the people who have worked for the realization of this summit especially the organizing committee and also all the participants who honored us with their presence. Also I extend my best wishes to all our staff for their hard work.

We truly value your participation and support for this summit. Thank you so much for coming and for your attention.

DR. ABDULRAHMAN ABDULAZIZ AL MESNED
MBBS, SBP, ABP, MRCPCH, KFHI Cardiology
Consultant Pediatric Cardiologist
Head, Pediatric Cardiology
Center Director
Prince Sultan Cardiac Center Qassim
WELCOME ADDRESS FROM THE PATRON

It is a moment of great honour and pleasure to welcome our esteemed guests from inside the kingdom and abroad.

This Primary PCI Summit is an effort to provide the attendees with the latest in the field of "STEMI" management and to broaden the base for better cardiac services for our population.

It is an opportunity to share the national and international experience, in the light of scientific knowledge and to bring together a standardized care approach.

I am certain that this meeting will provide better chances of future communication between the professionals in the field of Cardiology in particular and Medicine in general.

On behalf of Prince Sultan Cardiac Center Qassim, I would like to extend my sincere thanks to Saudi Heart Association (SHA), Saudi Arabia Cardiac Interventional Society (SACIS) and organizers to make this event a success.

DR. TARIQ ISHAQ SOOMRO
MBBS, Dip Card, MRCP, FRCP
Consultant Cardiologist
Medical Director
Prince Sultan Cardiac Center Qassim
On behalf of the Scientific Committee of the 1st Qassim Primary PCI Summit, it is my great pleasure to welcome you to participate in our summit which is organized by Prince Sultan Cardiac Center Qassim in collaboration with Saudi heart Association and Saudi Arabia Cardiac Intervention Society.

The aim of this summit is to share experience in the field of Primary PCI and to promote collaboration in the field of research. The scientific programme includes state-of-the-art lectures, interesting case presentations and introduction of research works.

Two important sessions will cover the outlook of Primary PCI among the kingdom to know the reality and plan to do Primary PCI for all patients with STEMI in reasonable time.

We are gathering our colleagues from Qassim health facilities to share their knowledge with us and refine STEMI net in the province. This year we have some research work to present.

I hope next summit we will have more research presentations as we are working together and including our young staff.

May Allah bless you all and thanks for coming to your summit.

DR. HASSAN HAMED KHALAF, MD, PhD
Consultant Interventional Cardiologist
Head of Education, Training and Research
Prince Sultan Cardiac Center Qassim
WELCOME ADDRESS FROM
THE CHAIRMAN OF ORGANIZING COMMITTEE

On behalf of the Organizing Committee it gives me immense pleasure to welcome you to the first Primary PCI Summit organized by Prince Sultan Cardiac Center Qassim in collaboration with Saudi Heart Association (SHA) and Saudi Arabia Cardiac Interventional Society (SACIS).

The aim of this meeting is to share experience of key national and international speakers on the contemporary issues of STEMI interventions. Our center is providing round-the-clock Primary PCI services ever since its inception and caters to a large population of Qassim and adjacent areas for a variety of cardiac interventional services.

We are indebted to a galaxy of national speakers who are the leaders in the field of interventional cardiology and heads of cardiac societies in the country for their participation in the summit.

We are fortunate to have some eminent international faculty who will share their experience and contribute toward refinement of Primary PCI services in the country.

Our vision is to expand and optimally implement the services of Primary PCI to maximum number of STEMI patients in the region.

Once again I thank you all and wish you a pleasant experience during your stay for the summit.

DR. MEHBOOB ALI DAR
MD, DM, MRCP, CCDS, FACC, FHRS
Consultant Interventional Cardiologist
Head of Cardiac Catheterization Laboratory
Prince Sultan Cardiac Center Qassim
On behalf of the Saudi Heart Association, I would like to welcome you all to this unique symposium that is focused on one of the major priorities of our Association which is Primary PCI for STEMI patients.

The scientific program is outstanding since it includes world-renowned international experts in this field, in addition to a great gathering of key opinion leaders from all over the country. I would like to express my deep gratitude to the organizers of this symposium at Prince Sultan Cardiac Center in Qassim for taking the lead in putting together this first-of-its-kind symposium in our country, in collaboration with our national interventional society SACIS.

I would like also to extend my deep thanks to our international guests who were kind enough to leave their families and work to share with us their extensive experience that we all very eager and keen to learn from.

I am very positive that this symposium will contribute significantly to the improvement in the knowledge-care gaps in this field, and will enhance the scientific network among all practitioners who are taking care of our STEMI patients and hence improve their care and outcomes.

Dr. KHALID FAYEZ ALHABIB  
MBBS, FRCPC, FACC, FESC  
President of the Saudi Heart Association  
Associate Professor of Medicine  
Interventional Cardiology Consultant  
King Fahad Cardiac Center  
College of Medicine, King Saud University
Dear guests, speakers, and participants. Prince Sultan Cardiac Center Al Qassim, in collaboration with the Saudi Arabia Cardiac Interventional Society (SACIS) is delighted to welcome you to the First Qassim Primary PCI Summit.

For these two days summit, we will hear about sharing of experiences and I believe that this summit will be successful in promoting research to combat primary PCI.

I trust that each one of you will make the most of this opportunity to share with our co-healthcare practitioners, your views and insights and I hope that we all can learn from each other, so let us prepare ourselves to be challenged and motivated.

I would like to give my greatest appreciation to the PSCC Al Qassim for hosting this event and to the entire contributors who made this meeting possible.

In the end, I wish us all to have a good and open discussion in this meeting.

Dr. KHALID AL FARAYDY
MD, FRCPC, FACC
President of Saudi Arabia Cardiac Interventional Society
Consultant Interventional Cardiologist
Director of Medical Administration
King Fahad Military Medical Complex Dhahran
